# OC Dualies White Elephant Gift Exchange

**Each participant shall bring one wrapped gift valued between $40 and $50. Each player will receive one raffle ticket in exchange for each gift. Limit one gift per person or two gifts for couples. Once all tickets are distributed, one raffle ticket is randomly drawn to determine the first player. The first player unwraps a gift from the pile, which is theirs to keep unless stolen. After opening a gift, the person draws a new raffle ticket to determine the next player.**

**Each subsequent player can:**

- **Choose a new, unopened gift from the pile**
- **Choose to steal an already-opened gift.**
- **If a gift is stolen, this player can steal another gift or choose from the pile.**
- **Gifts can be stolen up to 2 times; afterwards, the gift is frozen and may not be stolen again. (NOTE: You cannot immediately steal back a gift that was just stolen.)**

**The game continues until all gifts are opened, at which point player #1 gets a final turn to keep their current gift or steal another gift. The person whose gift is stolen may keep the gift or steal another gift. This process continues until the last player decides to keep the gift or all gifts are permanently frozen at which point the game is over.**
